TEOXANE

THE EXCELLENCE OF SWISS SCIENCE

DOES YOUR SKIN LOOK AS GOOD AS YOU FEEL ?

Today, skin quality, radiance and texture play an important role in how you feel and what you project to the world. A firm, taut skin with a cushiony bounce and a healthy-looking, glowing complexion is what we all dream of. Our stressful, action-packed lifestyles in polluted urban environments challenge our skin daily. Moreover, ageing also impacts skin quality over the years^{1,2}. As a result, your skin no longer reflects the energy and age that you truly feel like inside.

SKIN CONCERNS^{1,3,4}

A close-up photograph of a woman's face and neck. She has light skin, blue eyes, and brown hair pulled back. Three white teardrop-shaped callouts with numbers inside point to specific areas: '1' on her cheek, '2' on her neck, and '3' on her upper chest. The background is a soft, out-of-focus light color.

Your skin needs revitalizing and redensifying treatments to recover its glow, hydration and elasticity, and to prevent the appearance of wrinkles. TEOXANE has the solutions you need for your skin.

TEOXANE SKIN SOLUTIONS

FINE LINES & WRINKLES

A light, fluid and highly malleable hyaluronic acid (HA) gel can be injected superficially to fill fine lines and wrinkles, and plump the skin. Wrinkles are smoothed and hollowed areas are subtly filled, while redensifying skin texture.

SMOOTH AWAY THOSE WRINKLES & GET A MORE EVEN SKIN TONE!

SKIN QUALITY & TEXTURE

An injectable HA-based beauty booster containing a cocktail of nutrients (amino acids, anti-oxidants, minerals and vitamin B6) to revitalize and treat skin elasticity, density and brightness while bringing a subtle tensor effect and a more youthful glow.

BRING OUT YOUR INNER BEAUTY & RETAIN THE SKIN YOUTHFUL FIRMNESS LONGER !

OPTIMAL RESULTS POST PROCEDURE

Your physician may suggest treating your skin after aesthetic procedures such as injections, lasers, radiofrequency, microneedling, or peeling by applying a sterile, HA-based topical gel to help your skin recover and feel better. This booster-treatment further nourishes and replenishes the skin with hydrating agents.
